

Medical Director – Adult Psychiatrist – Addiction Medicine

THE LOCATION: Tampa, Florida

We have an excellent, full time opportunity available for a Board Certified and experienced adult psychiatrist to join an outpatient team in Tampa, Florida. The facility has more than 45 years of experience in treating addictions and co-occurring mental health disorders.

The facility is currently expanding their services and transitioning to become a SAMHSA Certified Community Behavioral Health Clinic (CCBHC).

This is an exciting opportunity to work with a multidisciplinary, collaborative team that includes psychiatrists, ARNP, fellows, residents, dedicated therapists and case management staff to provide behavioral health services to individuals across the continuum of care. You will provide evidence-based treatment across a range of mental health disorders and lead measurement-based care for positive clinical outcomes.

You will be the medical director of one psychiatrist, one nurse practitioner and other behavioral health staff. You will also supervise PGY-4 psychiatry residents and PGY-5 addiction psychiatry fellows, as well as have the opportunity for a faculty appointment at the University of South Florida. The current need is for general outpatient psychiatric services as the facility transitions into a SAMHSA CCBHC, but will also have the opportunity to develop additional skills in addictions psychiatry and child and adolescent psychiatry.
